

PRIVATE EQUITY AND VENTURE CAPITAL LAB

An application-based, experiential learning program for Chicago Booth students. Participants gain hands-on experience in the private equity and venture capital industries through the combination of an intensive internship and an academic course.

OVERVIEW:

As an experiential learning program, the PE/VC Lab includes a spring quarter class as well as an internship for 15-20 hours per week for at least 10 weeks at a private equity fund. Internships may take place during the spring quarter only, winter quarter only, or both quarters.

Students are matched with a firm based on the firm's criteria and the student's background. There are a variety of firms that participate in the Lab, and each firm looks for a specific background based on their investment focus and current projects. Participants work on specific assignments ranging from evaluating new market and business opportunities for investment to analyzing specific issues faced by portfolio companies.

The PE/VC Lab requires a significant time commitment. Selected students are urged to register for only three courses (including the Lab) during the quarter in which they are interning.

WHO SHOULD APPLY?

The PE/VC Lab is open to current, full-time Chicago Booth students as well as evening and weekend program students with flexible schedules. XP students are not eligible to participate in the Lab. International students may participate, but must meet with Christine Gramhofer in Academic Services before accepting an internship offer.

INFO SESSION:

The PE/VC Lab Info Session will be held on **Monday, October 23**, from 12 - 1 p.m. at Harper Center Room C-25. Register online at bit.ly/PEVC-Info2017
